

**That Knife-Like Pain**  
Have you a lame back, aching day and night? Do you feel sharp pains after stooping? Are the kidneys sore? Is their action irregular? Do you have headaches, backaches, rheumatic pains, feel tired, nervous, all worn-out? Use Doan's Kidney Pills—the medicine recommended by so many people in this locality. Read the experience that follows:

**A Missouri Case**

G. C. McNeely, 645 Cherry St., Poplar Bluff, Mo., says: "I was suddenly taken with pains in my back and sides, just as if a knife was being thrust into me. My head ached terribly. I had dizzy spells, and couldn't do a bit of work for three months. I was in bad shape when I began using Doan's Kidney Pills. They helped me from the first and I was soon able to go back to work, strong and well. The cure has lasted."

Get Doan's at Any Store, 50c a Box  
**DOAN'S KIDNEY PILLS**  
FOSTER-MILBURN CO., BUFFALO, N. Y.

**Make the Liver Do its Duty**

Nine times in ten when the liver is right the stomach and bowels are right. **CARTER'S LITTLE LIVER PILLS** gently but firmly compel a lazy liver to do its duty. Cures Constipation, Indigestion, Sick Headache, and Distress After Eating. SMALL PILL, SMALL DOSE, SMALL PRICE. Genuine must bear Signature.

*W. D. Wood*

**BLACK LEG**  
LOSSES SURELY PREVENTED  
Cures black leg, sore shins, and other ailments. Small pills, small price.

**PARKER'S HAIR BALM**  
A hair growing and hair preserving balm. For restoring color and beauty to gray or faded hair.

**Murphy's Dilemma.**  
They met on the high road and shook hands.  
"Shure, Pat," said Murphy, "betting a shokin' had habit."  
"Shure, Murphy," said Pat. "But why?"  
"Ye know Costigan?"  
"Truth I do!"  
"Well," said Murphy, "he bet me sixpence to a shilling that I couldn't swallow an egg without breaking the shell of it."  
"And did ye lose the bet?" asked Pat.  
"No, Pat, I won it," replied Murphy. "Then phew's aillin' ye!"  
"Shure, it's the egg that's aillin' me," groaned Murphy. "If I jump about I'll break it and cut me stomach with the shell, an' if I kape quiet I'll hatch an' I'll have a Shanghai rooster scratchin' me inside!"—Pearson's.

**Two Singles.**  
The Nervous Curate (trying to follow an introduction with genial conversation)—And—er—how is your wife in these trying times?  
The Introduced—I regret to say, sir, that I am not married.  
The Nervous Curate—Ah, yes, of course; how exceedingly pleasant that is! I take it, then, that your wife is single, too.—London Sketch.

**Unexpected Reply.**  
"Ethel, do you know you have hair just like your mamma's?"  
"Oh, no, I haven't. I can't take mine off!"

**The Species.**  
"I have a fine setter at my place."  
"So have I."  
"Mine's a Gordon setter."  
"Mine's a Plymouth Rock."

South African business is severely depressed by the war.

**DOVES ON BOSTON COMMON**

Become Pets of All Who Will Be Friendly and Feed Them morsels of Food.

What squirrels are in Central park, New York, doves are on the Common, Boston.

In Central park squirrels scamper over the walks and the lawns, climb trees and approach people sitting on the benches to be fed. They hop up on the benches and on to friendly people's shoulders and they eat out of people's hands. On Boston common the doves are just as sociable.

They appear to depend upon the people in the park for their subsistence and they are very tame. They walk along the paths quite undisturbed and approach people without the slightest fear. Both children and adults feed them.

Facing the east side of the common is Tremont street, a busy shopping thoroughfare. Along the north end of the common runs Park street, from Tremont to Beacon, at the statehouse. On the Tremont street side of the common within its borders and not far from Park street are entrances to two of Boston's subways. This northeast corner of the common at Tremont and Park streets is paved with concrete, making there a plaza perhaps a hundred feet square.

It is a busy spot, with all of a busy city's stirring activity; but into this plaza the doves come just the same and with all their accustomed serenity. In this busy place the other day stood a tall young man feeding doves, of which there were thirty or forty about him, some a few feet away and placidly walking toward him or around him, and some gathered immediately in front of him, under his hands, while occasionally one would fly up to alight on his shoulder.

Frequently a dove appeared perched upon his head or one stood upon his shoulder; often one alighted upon the fingers of the hand in which he held the food and ate out of it. Once a dove that had perched on his shoulder stepped from there with calm deliberation, step by step, down his upper arm and then out along his forearm to eat out of his hand.

So, in one way and another but ever tranquil in the face of the surrounding activity, they kept up their evolutions about him. Nearly stood a small boy dropping crumbs and he had a few doves around him, but most of the doves seemed to find the tall young man the greater attraction.

**Waterproof Matches.**  
Hint for camping and fishing parties. Many of you have encountered the annoying experience of finding yourselves miles from a store and all the matches in your possession so damp that they could not be used. A fact worth knowing is that matches can be made waterproof without injury by dipping them in very hot melted paraffin, allow them to cool and they are ready for use. The paraffin does not interfere with their use in the regular way and they are absolutely protected from dampness.

**The Wily Professor.**  
Clerk—See here! You told me if I took your course, it wouldn't be long before I was earning \$10 a week.  
Professor Skinner—Well?  
Clerk—Well, the most I can earn is \$20.  
Professor—That so? But, honestly, now, don't you feel that you are earning \$40? Almost every clerk feels he earns at least twice as much as he gets.—Boston Transcript.

**Quite Easy.**  
"I hear Jim is going to organize an aeroplane enterprise."  
"He ought to find it an easy matter to keep its stock soaring."

**When It Is.**  
"Pa, is marriage a failure?"  
"Usually, my boy, if a man marries for money!"—Detroit Free Press.

**Exactly.**  
"What do you think? They pinched the multimillionaire for speeding."  
"Well, wasn't that a rich one!"

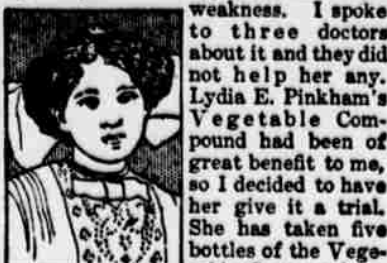

A bluish is one of the few things that cannot be counterfeited.

Many a man imagines that there is only one honest man in the world.

**MOTHER OF SCHOOL GIRL**

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Daughter's Health.

Plover, Iowa.—"From a small child my 13 year old daughter had female weakness. I spoke to three doctors about it and they did not help her any. Lydia E. Pinkham's Vegetable Compound had been of great benefit to me, so I decided to have her give it a trial. She has taken five bottles of the Vegetable Compound according to directions on the bottle and she is cured of this trouble. She was all run down when she started taking the Compound and her periods did not come right. She was so poorly and weak that I often had to help her dress herself, but now she is regular and is growing strong and healthy."—Mrs. MARTIN HELVIG, Plover, Iowa.

Hundreds of such letters expressing gratitude for the good Lydia E. Pinkham's Vegetable Compound has accomplished are constantly being received, proving the reliability of this grand old remedy.

If you are ill do not drag along and continue to suffer day in and day out but at once take Lydia E. Pinkham's Vegetable Compound, a woman's remedy for woman's ills.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

**Sea Sleds for Coast Defense.**  
Sea sleds are the latest craft to be considered by the United States navy for coast defense work. The navy is experimenting with a half-motor boat, half-hydroaeroplane, which neither flies over the water nor cuts through it, but skips along its surface. A 24-foot boat of this type has made 36½ miles an hour at a navy test. It is hoped to obtain a boat that will carry men at 55 or 60 miles an hour. It is said 200 of such craft could be built at the cost of a single scout cruiser and would be much more effective.

**A Pitched Battle.**  
From the viewpoint of an innocent bystander, philosophically remarked the old codger, "I believe that the keenest competition I know of occurs when two chronic dyspeptics get together and compare their symptoms."—Judge.

**An Ideal Combination.**  
"What is your idea of a happy combination?" asked the doctor.  
"A millionaire menu with a deck-hand appetite," answered the gouty patient.

**Seasonal Misfortune.**  
Museum Manager—Where's the human fly?  
Attendant—Can't perform today. His wife's been swatting him.

**Tommy's Eighteenth Question.**  
"Pa, who was the most patient man?"  
"Job used to be."

The Croton river, which furnishes to New York the greater part of the water consumed in its limits, was named for an Indian chief.

At Cambridge university 2,000 out of 2,500 undergraduates have gone or are going to the war.

**HORSES PIGS and CATTLE**

**HINTS FOR SWINE BREEDERS**

Squealing Hog Is Unprofitable, a Contented One Grunts—Give Pigs Plenty of Exercise.

(Dr. J. H. COFFMAN, Idaho Station.)  
Keep the pens clean and dry to prevent disease among your hogs. Don't let drafts blow on the hogs—drafts are fatal to them, causing pneumonia, rheumatism and various other ailments.

If your hogs are sick or not doing well, find out what the trouble is. It will pay. A squealing hog is not profitable—a contented hog grunts. Don't keep them in too small a pen. Exercise is essential to health. Give small pigs plenty of exercise, it may prevent tumors.

Give the sow and pigs plenty of room on the sunny side of a building.

Money Makers on Any Farm.

Colony houses for brood sows are more sanitary than a central house. If your little pigs are troubled with scours change the diet of the sow. Do not feed dirty, spoiled or sour feed. Thoroughly cook all meat scraps.

If hard born enlargements form on the hock joints of your small pigs, the chances are that they have rickets. Introduce some new blood into the herd and feed your pigs per each 100 pounds weight a mixture of calcium phosphate pulverized, nux vomica two ounces, artificial carlsbad salts ten ounces.

For worms give five grains calomel and ten grains santaloin per each 100 pounds, followed in about six hours by a bran mash or give ten grains santaloin and 20 grains areca nut after a 24-hour fast.

Follow some of your hogs to the packinghouse and see them inspected. It will pay in case they are tubercular.

Use plenty of whitewash around the pens.

Isolate all sick hogs. Burn all dead ones.

**MAKE HORSE STAND QUIETLY**

Halter Twitch Is Great Aid in Handling Unruly Animals—Ordinary Halter and Tie Rope.

To handle the feet of a horse that will not stand still or that kicks, a halter twitch is a great aid. This twitch is easily applied and needs only the ordinary halter and the rope. Pass the rope over the horse's head just behind the ears; raise the upper lip and put the rope across the gums above the teeth, run the rope through the loop made by passing the rope over the horse's head. The rope should be tight from the halter ring, over the head, under the loop and through the loop. A few good pulls on this rope should make the horse stand quietly.

**PROVIDE SHELTER FOR PIGS**

Digestive Disorders Particularly Fatal Among Animals Kept on Alfalfa Without Protection.

Several men have reported their pigs dying of digestive disorders. This ailment has been particularly fatal among hogs that are kept on alfalfa pasture, with little or no shelter at hand.

Pigs are particularly liable to digestive disorders under such conditions, especially if cold rains occur. They should at all times be given a dry bed free from dust into which the sun can shine. If they get sick it is well to consult a veterinarian.

**For Breeding Animals.**  
A small field of rape near by the hog yards, and a few rods of woven-wire fencing, will prove of great value in conditioning the breeding animals and young things.

**Colts in Pasture.**  
All growing colts should be in pasture during the summer months. Exercise is most essential to the development of strong legs and muscles.

**Shoes for Farm Team.**  
Keep the farm teams well shod. Many farmers are careless in this matter and it is cruel.

**Importance of Regularity.**  
Regularity of work and regularity of feeding make long years of usefulness for the work horse.

**MOVE TO HONOR SCIENTIST**

Vassar Graduates Plan to Erect Memorial Over Grave of Prof. James Orton.

Far away in South America, on a small and unfrequented island in Lake Titicaca, stands a little crumbling tombstone which marks the last resting place of a once noted American explorer, Prof. James Orton. Only in the hearts of his surviving relatives and of Vassar graduates of some forty years ago is his memory enshrined, and until recently comparatively few even of these remembered how Orton lost his life and where his body lay. They have now, however, learned something of the particulars of his death and the location of his grave, and a movement has been started among the Vassar alumnae of the early seventies and soon a marble shaft will rise to mark the spot where James Orton sleeps.

An article by Edward Albee in the Monthly Bulletin of the Pan-American Union served to awaken the memories of those who had forgotten, and struck a responsive chord in the hearts of the older Vassar women.

Orton, who was born at Seneca Falls, N. Y., in 1830, and educated at Williams college and Andover Theological seminary, entered upon his career as a scientist in 1856, when he was appointed instructor in natural sciences in Rochester university. In 1867 a scientific expedition to the equatorial Andes and the River Amazon was organized under the auspices of the Smithsonian institution, and Professor Orton was selected as its leader. As a result of this expedition many hitherto unknown specimens of natural history were collected, and today form portions of the collections in the museums of such well-known depositories as the Smithsonian institution at Washington, the Philadelphia Academy of Natural Science, the Boston Society of Natural History, the Peabody Academy of Science, and Vassar college, while the bulk of the collection was purchased by Ingham university.

Upon his return to the United States Professor Orton was offered the chair of natural history at Vassar college in 1869, with which institution he remained until his tragic death in 1877. In 1873 he made a second journey across South America from Para up the Amazon to Lima, Peru, and to Lake Titicaca, making valuable ethnological collections of Inca relics. In 1876 he organized a third expedition, with the object of exploring the Great Beni river, a branch of the Madeira, one of his companions being Dr. Edwin Ruthven Heath, discoverer of the River Heath in South America, who is still living in Kansas City.

This expedition reached the mouth of the river, where most of the equipment and supplies were lost. Orton and his few companions made the terrible 600-mile journey back to La Paz through forest and jungle amid incredible hardships, but on crossing Lake Titicaca on the way to Puno the intrepid scientist died September 25, 1877, from the exposure incurred. Subsequently his body was taken to Esteves island by sympathetic friends, and some years ago Scotch engineer named Crighton, built with his own hands the rough monument which now marks the grave.

**A Wise Parent.**  
"Father," said Willie, "I want to write a war poem and I can't think of a rhyme for Przemysl. Would weasel do?"

"I don't know, my son," replied the pater. "But I'm told there is no rhyme for jinnety. Why not try that? Nobody'd know the difference."

**This Year.**  
"Isn't it warm today?"  
"Yes; but how lovely and cool your furs do make you look."

British Columbia reports the discovery of extensive gypsum deposits.

**What kind of roofing shall I buy?**  
The General says: You can buy a cheap unguaranteed roofing and save a few dollars in initial cost—or you can pay this slight difference and get a roofing guaranteed by the world's largest manufacturer of roofing and building papers. The final cost is what counts and you'll find it cheaper in the long run to buy

New York City Chicago Philadelphia St. Louis Boston Cleveland Pittsburgh  
Seattle Atlanta Houston London Minneapolis Kansas City Sydney

**PIECES OF MAN REFITTED**

Circus Acrobat, "Smashed to Bits," is Being Scientifically Knitted Together.

Like a vessel of fragile china, shattered to pieces and then carefully patched together so that no eye can distinguish the cracks, Miriam Cortez, a Spanish circus performer, who was crushed and fractured in a score of places all over his body on April 30, has been knitted together by the doctors of St. Luke's Homeopathic hospital and is now almost well again. Remarkable in the annals of surgery has been this man's strange case, involving months of the most painstaking work and racking suffering on the part of the patient. That he recovered at all from his frightful injuries is remarkable; if he should regain all his physical faculties, as the surgeon says he will, it will be almost miraculous.

Cortez was an acrobat in the circus. He performed his most thrilling acts on top of a long pole, which was balanced on a support, attached to a broad leather belt, worn by the strong man of the group.

On the night of April 30, before a large crowd, Cortez was performing his act when his feet slipped. He went crashing to the ground. Both his legs were fractured, the right leg in the thigh and the left leg just above the ankle. His left collarbone was also fractured and his nose broken. His right arm was jolted out of its socket, and his left arm crushed under him. His head was bumped in several places. Internally several organs were thrown out of place and four ribs were fractured. —Philadelphia Record.

**Improvement Impossible.**  
"I've been a strap-hanger for 20 years," said the man who wore a resigned look.  
"I guess you have your opinion of the trolley company."  
"Well, I haven't thought much about the company, but I believe if I could devote a little time to it I could invent a more comfortable strap than any now in use."

**Explained.**  
Cadler (complacently)—Ah, Bobby, I am glad to see my photograph in your sister's frame on the mantel.  
Bobby—Well, she had to rush some to get it in over Tom's before you came.

Our idea of a mean woman is one who refuses to pay the doctor after he has converted the late lamented's insurance policy into ready money.

To remove grease and dirt from machinery with gasoline is the purpose of a new compressed-air syringe.

**Food for the Business Trenches**

It takes the highest type of nerve and endurance to stand the strain at the battle front of modern business.

Many fail. And often the cause is primarily a physical one—improper food—malnutrition. It is a fact that much of the ordinary food is lacking in certain elements—the mineral salts—which are essential to right building of muscle, brain and nerve tissue.

**Grape-Nuts**  
FOOD

made of whole wheat and barley, contains these priceless nerve and brain-building elements in highest degree.

Grape-Nuts food is easy to digest—nourishing—economical—delicious, and as a part of the menu of modern business men and women helps wonderfully in building up the system for strenuous demands—and keeping it there.

**"There's a Reason" for GRAPE-NUTS**  
Sold by Grocers everywhere.
